 [linkedin.com/in/darwin-harish-joan-4506171a4](https://www.linkedin.com/in/darwin-harish-joan-4506171a4)

Skill Highlights

- RE-Framework
- Performance and Scalability
- Cloud Orchestrator
- Document Understanding

Technical Skills

Good

- UiPath
- UiPath Apps
- Power Automation (Desktop and Cloud)
- Microsoft Power Apps
- Ai Hub(Power Automate)
- AI center(UiPath)
- MS Excel
- API
- Citrix Automation
- Python(Automation Related)
- Abby Flexicapture

Learning

- Automation Anywhere

Acceptance:

- Able to relocate anywhere and any location is not a constraint for me.

Summary

- My main interest is in RPA i.e. building a robust process where I can utilize my RPA skills, strong analytical & problem-solving skill, so that I can enjoy the project and also contribute to the project growth.
- I have 3 years of experience and UiPath Certified Associate RPA Developer. I have automated so many applications and looking forward for more knowledge and skills to grab.
- I can prioritize tasks, multitask effectively, and execute them with precision.

Professional Summary

Current Organization: Ducont India Systems Private Limited (Apr 2024 – Till Date)

Location: Guindy,Chennai, Tamilnadu, India.

Current Role: RPA Associate Developer

Previous Organization: InnoHat Systems Pvt Ltd (Jan 2022 –Apr 2024)

Location: Chennai, India

Current Role: RPA Consultant

Educational Qualifications

MSc Computer Science (2019-2021)

St. JOSEPH’S COLLEGE (AUTONOMOUS) - **7.2** CGPA

BSc Computer Science (2016-2019)

St. JOSEPH’S COLLEGE (AUTONOMOUS) - **6.6** CGPA

HIGHER SECONDARY SCHOOL (2016)

VETRI VIDHYALAYA HR.SEC.SCHOOL - 77 %

SECONDARY SCHOOL (2014)

VETRI VIDHYALAYA HR.SEC.SCHOOL - 85 %

CERTIFICATION:

UiPath Certified : UiPath Associate RPA Developer

<https://credentials.uipath.com/30efe88d-b950-41f4-8a39-5b7cad8d19d5>

Microsoft Certified: Power Platform Functional Consultant Associate

Project Experience

1. Student Reconciliation Process (Aug 2024 – Present)

RPA product: Power Automate

Automated reconciliation of student data between Salesforce and KHDA reports, identifying mismatches in Fee ID, Student School ID, and student attributes (e.g., Grade, Nationality).

Logged discrepancies and sent exception reports to concerned teams, streamlining reconciliation and improving data accuracy.

Responsibilities:

1. Handled end-to-end implementation.
2. Developed logic using Power Automate

2. Invoice Extraction and Reconciliation Automation(Oct-2023 to Jul-2024)

RPA product: Python

Developed a scheduled BOT workflow to retrieve PDFs and Noting Sheets via APIs, extract key data fields, and reconcile them using 25 parameters. Enabled real-time status updates, robust error handling with retries, and automatic ticket creation for unresolved issues. Maintained detailed logs for monitoring and troubleshooting.

Responsibilities:

1. Handled end-to-end implementation.
2. Developed logic using Python

3. Sales Register Reconciliation Process (Jun-2023 to Sep -2023)

RPA product: UiPath

Developed an automation solution for reconciling SAP payout reports with transaction reports from PhonePe, credit cards, and Paytm for a premium Apple reseller.

The process automatically triggers upon file upload, reads input files, and reconciles voucher IDs from the SAP report with app codes for various payment modes.

Matched and mismatched amounts are segregated into a new Excel file for SAP processing. The reconciled report is uploaded to SAP daily, streamlining operations and significantly reducing manual effort.

Responsibilities:

1. Handled end to end implementation.
2. Effectively managed and communicated with clients.
